WHO ARE WE

Our company was founded in August 2016 by the Mechanical Engineer Alperen Kececioglu and Hasan Kececioglu with its headquarters in Grabenstetten, Germany. The main focus is on contract manufacturing, mechanical processing of steel and stainless steel. With the experience of the Mechanical Engineering industry of its founders, the Company has gained a foothold in the Industry in a short time.

We are specialized in high precision machining of parts made from Aluminum, Low/High Alloy Steels, Stainless Steels, PH Stainless Steels, Titanium, Castings and Forgings.

Complex component manufacture is where we excel, whether it be drumming the initial design concept of the part, to the first prototype piece & finally to the full batch production run. Our ability to machine and manufacture a variety of components ensures delivery of most effective solution for our Customers.

All projects are performed in key turn manner which means from material to delivery we perform all the required processes and ship it to customer.

Our Workflow is certified by ISO 9001: 2015 certificate.

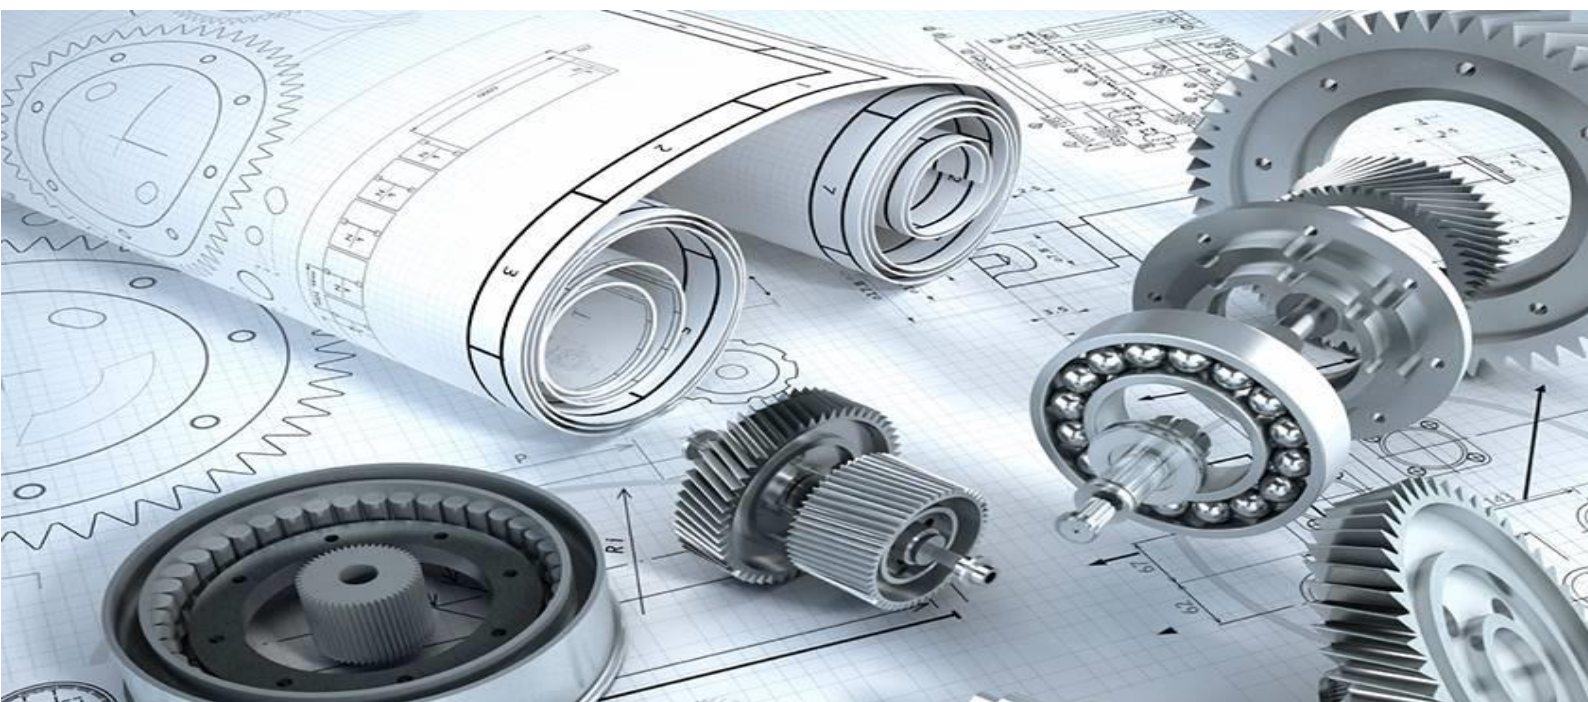

WHAT WE DO

Alfa Technology is a sub-contract supplier of machined components across many diverse sectors which requires processes as:

- ⚙️ Prototyping and Tooling
- ⚙️ Design / Manufacture / Assembly
- ⚙️ Medium to high volume part productions
- ⚙️ Testing parts and assemblies to customer requirements
- ⚙️ In depth & detailed inspection procedures for all processes

We are specialized in high precision machining of parts made from Aluminium,

- ✓ Aluminum,
- ✓ Low/High Alloy Steels,
- ✓ Stainless Steels,
- ✓ PH Stainless Steels,
- ✓ Castings and Forgings

Quality from the beginning.

We always want to offer the best service for you. Therefore, we never pretend that the certifications constantly question the quality of our products and work processes and, if necessary, optimize them.

We regularly have our processes and systems checked and certified by external organizations. Only in this way can we remain what we are for you: a competent and long-term partner for all production services.

*Our Quality Management is
certified according to
ISO 9001: 2015.*
